Project TurnOver is now also established in the UK

VIRTUAL CLARITY
Clear Thinking. Straight Talking.

Project TurnOver was started by Joeri Peperkamp over six years ago in Holland and has helped over 600 vulnerable young people aged 12 years plus, who are not in education, training or employment (NEET) or in prison, to get their lives back on track and into education, training, apprenticeships and/or employment. We have an 80% success rate. We started Project TurnOver in the UK hosted at Staines RFC, Feltham. We have completed a successful pilot programme, followed by Cohort 2 and will be starting our PRU school programme Cohort very soon.

If you would like to support our project in any way, whether with time, kit, sponsorship or life/work skills, we would be delighted to hear from you.

Our thanks to the amazing support of *Virtual Clarity*, who is funding the current course. We already have expansion plans in the pipeline and are looking for support and sponsorship for various charity dinners, sporting events and more which will help grow the project and allow us help a wider UK participant base.

The TurnOver programme also offers essential enrichment and sporting activities which supports the development of the whole individual through not only improving their mental but also their physical wellbeing. By combining life skills training and playing rugby within a team, the programme accredits the values and heart of the rugby and its community to our success.

The core values of rugby is the 'vehicle' that drives the programme. Turn-Over is a specific rugby term. A 'Turn-over' is when a team re-gains possession of the ball and therefore takes control of the game. Project TurnOver aims to reverse the current situation of participants, allowing them to re-gain control of their future.
